## Street Magic

Magic like you've never seen it before live, close up, and performed on the Pittsburgh city block where Harry Houdini astounded crowds in 1916 with a jaw-dropping upside-down straight jacket escape 100 feet above ground!

Get to know the sleights, the stories, the mental magic, and the incomprehensible skill of Liberty Magic's world-class front-of-house magicians. An ode to the age-old style of street performance, some of Pittsburgh's greatest conjurers bring their craft to the sidewalk right out front of the one and only Liberty Magic Theater.

## #notwhite collective 2016- 2022

The #notwhite collective returns to the SPACE Gallery for their retro/prospective exhibition, #notwhite collective 2016-2022 featuring past and current, individual and collaborative works of the collective, embodying the diversity of their practices and the plurality of their voices. The works range from tenderness to rage, from beauty to disgust, from the familiar to the bizarre. This exhibition is a sharing of their experiences, how they connect to their identities, families, bodies; it is a marker towards their future and it is the beginning of furthering their hearts into the land and space they call home.

## Exploration of COLOR 2.0: A Retrospective of Works by Jo-Anne Bates

Explorations of COLOR 2.0 is a series of mixed-media prints with textual statements that represent the culmination of Jo-Anne's life experiences—with a lens placed on the injustices experienced by young African American people. Jo-Anne's constant exploration and manipulation of print material, speaks to the value process that affects collective and individual transformation. Her work offers visual and textual topographies upon which we can personally reflect, and the broader geography of her creative impact can be seen in the generations of individuals who have found their voices through the artwork she has created.

**Food, Drink — and Zines!**

Food, Drink — and Zines! is a collection of colorful, whimsical illustrations centering around food and alcohol, all created by the Pittsburgh illustrator Morg. Morg's work has previously appeared on the cover of Pittsburgh City Paper, and she's exhibited at zine and craft fairs across Pennsylvania. Morg has two great loves: sharing information, which she's found in her research, and eating great food. The two overlap in her work frequently, with recipes finding their way into illustrations and food and drink illustrations finding their way into Morg's self-researched, self-published "zines" - short-subject DIY magazines that Morg prints and binds herself.

From 5:30-8:30pm, Morg answers questions about the collection and even provides a demonstration of how to create your own zine from a single sheet of paper so that you can share your passions with the world.

**Intensional Particle and  
Mold 1 Installations by  
Hiroaki Umeda**

Hiroaki Umeda is a choreographer and a multidisciplinary artist recognized as one of the leading figures of the Japanese avant-garde art scene. Since the launch of his company S20, his subtle yet violent dance pieces have toured around the world to audience and critical acclaim. His work is acknowledged for the highly holistic artistic methodology with strong digital background, which considers not only physical elements as dance, but also optical, sensorial and, above all, spatiotemporal components. Based on his profound interest in choreographing time and space, Umeda has created interactive and immersive installations at Wood Street Galleries—welcoming viewers to move through his digital reality.
