Open

Something is unfolded or unlocked

Opposite

Two things that are as different as possible, such as being big and being little.

Outside

The outer side

Oval

A squished circle that has no sides or angles.

Over

Above

Pair

Two objects that are similar and used together like a pair of socks, shoes, or mitten.

Pattern

Something that repeats—with objects that appear in the same order again and again.

Pentagon

A shape with five sides and five angles.

Rectangle

has two long sides and two short sides

Rhombus

A rhombus is shaped like a diamond and has four sides that are all the same length. It has four angles, too.

Right side up

With the top facing up

Shape

The form of something.

Short

The ends are closer together

Size

How big or small something is.

Slow

Moving with less speed

Small

Tiny

Sphere

A solid round shape, like a ball.

Square

A shape with four sides that are the same length.

Symmetrical

When one side of something is the same as the other side.

Top

The highest part

Under

Below

Upside down

With the top part facing down

Weight

How heavy an object is.

Width

The distance from side to side of an object.

Absorb

To take in or soak up.

Amphibian

An animal with thin, moist skin that lives part of its life in water and part of its life on land.

Amplify

To make something louder.

Animal

Any living thing that can breathe, eat, grow, and move around.

Apple

A fruit

Beans

A food

Bones

Things that are underneath the skin and help support the whole body.

Camouflage

To disguise or hide by blending into the background.

Cloud

A cloud is made of tiny drops of water and floats in the sky.

Crackers

A food

Delicious

When something tastes really good.

Dew

Small drops of water that collect overnight on things outside.

Flower

The part of the plant that has petals. Many flowers have sweet smells and pretty colors.

Fragile

Something that is easily broken.

Fragrant

A pleasant smell.

Frog

An animal with smooth, moist skin, strong back legs for jumping, and webbed feet.

Frost

Thin layer of ice.

Fruit

Something that grows on a plant or a tree and holds seeds. Many fruits are sweet and good to eat.

Garden

A place where plants, flowers, fruits, and vegetables are grown.

Habitat

A place where something lives and eats and sleeps.

Inflate

To fill something with air.

Ingredient

One of the things that make up a recipe.

Insect

A small bug that has 6 legs, 2 antennae on its head, and sometimes has wings.

Investigate
